HELPING YOUR PLANT TO GET A NEW LEASE ON LIFE.

Few milestones are as pivotal in a nuclear plant's life as license renewal. And few partners are as trusted as Structural Integrity for license renewal support.

Our company was originally founded in 1983 to help utilities build and operate nuclear plants safely. More recently, nuclear utilities have turned to Structural Integrity for help in extending the operating life of their plants.

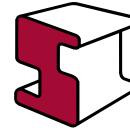

We offer the following services to make your journey to license renewal and subsequent license renewal a smooth one:

- Fatigue Assessment & Monitoring
- Aging Management Program (AMP) Review and Development
- NEI 03-08 & Materials Degradation Management Programs
- Vessel Integrity & Reactor Internals (BWR, PWR, CANDU)
- Corrosion Expertise (selective leaching, MIC, erosion-corrosion, general & localized corrosion, etc.)
- Buried / Underground Asset Management
- Cable Aging Management
- Concrete Aging Management
- Primary Water Stress Corrosion Cracking (PWSCC/Alloy 600)
- Non-Destructive Examination & Testing
- Acceptance Criteria/Fitness-for-Service
- Regulatory Support

As a global leader in the nuclear industry, Structural Integrity has advanced knowledge of all reactor types and credibility with regulators. We know how to navigate the license renewal process and provide ongoing support until your application is approved and your commitments are fully implemented.

From start to finish, we can make this monumental task of license renewal more manageable. Call **1-877-4SI-POWER** or visit www.structint.com/Top10 to learn how you can put our license renewal experience to work for you!

You generate the power. We'll generate the solutions.
